

Super Soaker CPS 2500 (1998) .:

Made By: Hasbro Inc. .:

Dimensions:

Length: 88.0 cm (34.7")
Width: 13.0 cm (5.1")
Height: 30.0 cm (11.8")
Weight: 1700 g (60.1oz.)

Nozzles:

#: Nozzle Selector
(3 settings)
Types: 5x, 10x, 20x

Selected Settings:

| | |
|----------------------------|-----------------------------|
| Nozzle: 5x | Nozzle: 10x |
| Output: 233 mL/s (7.8oz/s) | Output: 403 mL/s (13.4oz/s) |
| Max. Range: 11.0 m (36.1') | Max. Range: 12.0 m (39.7') |
| Shot Time: 3 s | Shot Time: 2 s |

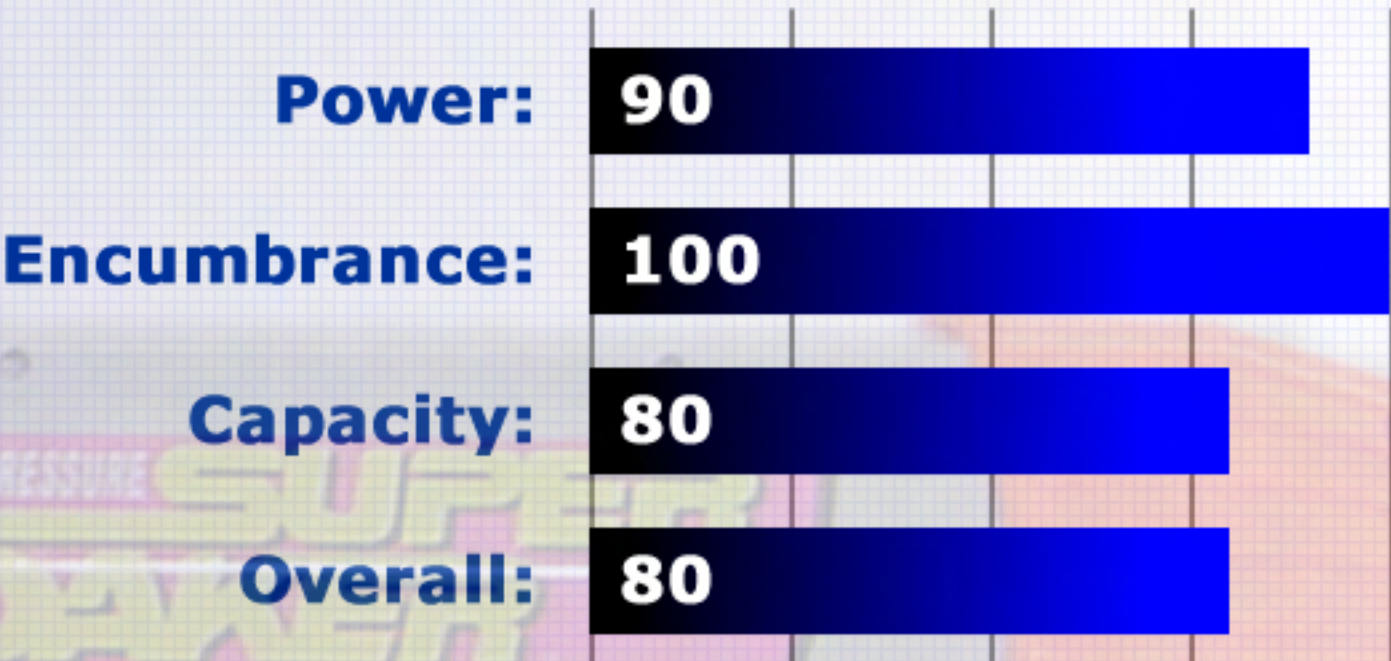

Nozzle: 20x
Output: 684 mL/s (22.8oz/s)
Max. Range: 10.0 m (32.8')
Shot Time: 1 s

Overview:

The Super Soaker CPS 2500 has three nozzles of varying sizes: The 5x setting is good for conserving water. The 10x setting is good for typical engagement with the enemy. The 20x setting works best if one desires to seriously drench an opponent. The 20x setting is nearly equivalent to the stream produced by the Super Soaker CPS 2000! Upon closer inspection, one will see that the size of the firing chamber is significantly smaller than the Super Soaker CPS 2000's chamber (roughly the same as that of the Super Soaker CPS 2000 Mk. 2's chamber). While lowering the amount of water that can be fired in a full burst, it does extend the battle time this blaster has on the field. The shoulder strap makes the CPS 2500 easier to carry despite its size and weight when fully loaded. Its built-in handle offers a comfortable place to hold when refilling. All in all, the Super Soaker CPS 2500 is a great weapon for heavier engagements.
