Shot Time: 8 s

Nozzle: "Flood"
Output: 350 mL/s (11.7oz/s)
Max. Range: 11.0 m (36.1')
Shot Time: 1 s

Overview:

As a whole, the Super Soaker SoakerTag Elite: Flash Flood is an excellent, high-powered light soaker. The main nozzle provide a good, solid stream while the 'Flash Flood' nozzle can provide an added drenching blaster of water should the opportunity arise. While not recommended when facing Super Soaker CPS 1500 or larger blaster users, this soaker can definitely hold its own in the majority of water fights (and definitely all SoakerTag matches) out there.

Note: In 2006, the Flash Flood was rereleased, but altered slightly to make it compatible with the new Max-Infusion extension reservoirs. Performance of the newer Flash Floods are believed to be the same as the original, but the ability to increase reservoir volume is a definite plus.
