### Super Soaker Liquidator (2004) .: Made By: Hasbro Inc. .:

#### **Overview:**

The Super Soaker Liquidator is the smallest of the air-pressure-based Soaker Tag line Super Soaker released in 2004. Possible having borrowed styling from the Super Soaker Max-D Secret Strike, the Liquidator features an upper reservoir while the pump is actually situated beneath the trigger-grip area.

Overall, the Super Soaker Liquidator is comparable to most smaller-sized water blasters. Decent as a back-up or as a primary blaster in smaller skirmishes, the Liquidator is a nice, solid, small soaker. Just don't go charging against a prepped CPS user.
