#: 1
Types: Stream Burst

Nozzle: Stream Burst
Output: 45 mL/s (1.5oz/s)
Max. Range: 10.0 m (32.8')
Shot Time: 0.5 s

Overview:

As a whole, the Super Soaker SoakerWars Shot Blast makes for a respectable, mid-sized, piston-based blaster. Its design draws heavily from the Nerf line and its construction feels very sturdy and durable. Thanks to its nozzle valve, the Shot Blast virtually always produces a good-powered stream, though there is a brief delay between pumping and stream generation. As well, if not enough pressure is generated on an incomplete pump, the Shot Blast will not fire at all. This can be of benefit for those who cannot pump as forcefully as streams from the Shot Blast have a minimum force to them. Then again, in the hands of an experienced water warrior, the Shot Blast can be quite effective.
